3PH-Mcore Three phases R-Core

Three phases R-Core

Specification :

Power : 5KW~100KW

Working frequency : 400HZ/50HZ

This kind of R-core is widely used for industry, radar carried of plane etc. Its no-load current is less 80% than the general cores', as no-load loss less 30%~40% and noise values less 8~13dB.
